

THE LOGO
LITHIUM BATTERY-POWERED KEYCHAIN FLASHLIGHT

MARKET

APPLICATIONS: Consumer, Hardware/Tool, Industrial, Automotive, Sporting Goods, Law Enforcement, Fire & Rescue, Industrial, Premium gift.

DESCRIPTION: The Logo keychain light is a weather resistant, personal flashlight featuring a 100,000 hour life LED and an auto off feature to conserve battery life. It also includes a non rotating snap hook for attachment to a keychain and a large imprint able area.

CASE MATERIAL: Impact resistant Polycarbonate and Thermoplastic Elastomer.

DIMENSIONS: Length: 1.8 in. (45.7 mm) Width: 1.2 (30.5 mm) Body Thickness: 0.37 in. (9.4 mm)

WEIGHT: 0.37 oz (10.7 grams) with batteries (included with purchase).

LIGHT SOURCE: 5 mm LED technology, impervious to shock with a 100,000 hour lifetime.

LIGHT OUTPUT: High = 10 lumens, Medium = 5 Lumens, Low = 2.5 Lumens and Blink

ON/OFF: Press the center of the SL logo for momentary or constant on operation.

Switching modes: Pushing the button within 1.5 seconds of the last button push will change the light mode. You may sequence through all three light levels, blink and then to off.

NOTE: If you wait more than two seconds between button pushes, the next press of the button will turn the light off.

To operate the light in momentary mode: Press and hold the switch. Release the switch after two seconds and the light will immediately extinguish.

Auto Off Warning Sequence: After four minutes of continuous run time the “auto off warning sequence” starts. This timer functions on High, Medium and Low modes. The feature is very useful as it gives the user adequate warning prior to turning off the light, while also conserving battery life.

The Auto Off Warning Sequence (AOWS) is as follows:

- . It starts off with 3 seconds of flashing the LED. Then the light returns to the set light level for the following 57 seconds.
- . Another 3 seconds of flashing, then the light returns to set light level for 27 seconds.
- . Another 3 seconds of flashing, then the light returns to set light level for 27 seconds.
- . LED turns off.

NOTE: If the switch is pressed any time during the AOWS, the auto off timer will be reset and the light will remain on for (4) four more minutes before the “Auto Off Warning Sequence” starts again.

RUN TIME: Blink Mode will flash continuously for 45 hours. High, Medium and Low modes run for several hours of intermittent use.

BATTERY: Two (2) 2016 size, Lithium coin cell batteries.

FEATURES: LED technology for extreme brightness.

Weather resistant.

1 meter impact resistance tested.

APPROVALS:  Meets applicable European Community Directives.

WARRANTY: Streamlight’s Limited Lifetime Warranty
